

The Bagua Map

HOW TO USE THIS MAP

The bagua map (BAH-gwa) is a very basic tool used in feng shui to learn which parts of a space—such as a home, office building, room or yard—correlate with particular areas of life. It is the cornerstone of Feng Shui and consists of 9 different sections. Once we bring awareness to what area of a space corresponds to which life aspiration, we can begin to shift and enhance our physical space in such a way that our environment helps us achieve our goals. As you use the map, you may find that some of your rooms may be in more than one Bagua area, this is ok.

When you position the Bagua Map always position it so that the front door of your home, office or room that you are evaluating is along the three front areas of the Bagua (Career, Intuition and Helpful People).

The 9 areas on the Bagua Map are:

Wealth & Prosperity Wood Back Left Blue, Purple & Red	Fame & Reputation Fire Back Center Red	Love & Relationships Earth Back Right Red, Pink & White
Family & Physical Health Wood Back Left Blue, Purple & Red	Spiritual Health & Well-being	Creativity & Children Metal Center Right White & Pastels
Intuition & Wisdom Earth Front Left Blue	Career & Life's Journey Water Front Center Black & Darktones	Travel & Helpful People Metal Front Right White, Gray & Black
